

LIV

2024 19BHD

WHAT MAKES US DIFFERENT?

100% Composite Design

Marine grade Thermoplastic makes up the construction of each LIV Unit. No wood. No Rot. Lifetime Guaranteed.

Double Welded Unibody Cage

Each LIV is double welded from the interior, creating an incredibly durable unibody cage that is built to last.

Exceptionally Lightweight

Designed with SUVs in mind, LIVs are some of the lightest travel trailers in their class. Ranging from 1500-4000lbs!

Chemical Free Build

LIVs are built free of harmful chemicals, making it perfect for the entire family. Camp worry free with LIV.

Low Maintenance

Thanks to the No Wood Unibody, LIVs don't require much maintenance, staying camping ready all year long.

Built in the USA

LIVs are proudly manufactured in Americus, GA. Schedule a tour today and see how LIVs are made!
